MOUTERE

Dual-Purpose Hop

Smooth High Alpha Hop

(with low co-humulone for exceptional smoothness)

Moutere is a high alpha hop, but with a difference. It has high alpha acidity combined with a low co-humulone content which creates a smooth bitterness. You'll note tropical fruit, citrus, and resinous pine flavors and aromas that result in an enjoyable rounded character.

Some brewers have described it as 'Nelson Lite', as it has similar characteristics but with a softer and more delicate dank profile. Moutere is an excellent performer in Lagers, Pale Ales, and bold IPAs. It also shines in NEIPAs, Wheat beers, Fruited brews, and inspirational combos.

It was originally launched as Brooklyn, later renamed Moutere which translates as 'Island' in the Māori language - pronounced Moo-tay-ree.

Representative T90 Specs

ALPHA: 17 - 19.5%

BETA: 7.7 - 8.6%

OIL (ml/100g): 1.0 - 2.3
